

REMARKS

Claims 1-19 are pending in the instant application. The present preliminary amendment eliminates the multiple dependency structure of claim 14, and claim 19 has been added to capture the eliminated dependency of claim 14. The present preliminary amendment, including the status indicators for the claims, was based on the claims as amended under Article 34, which were the claims relied on in the International Preliminary Examination Report. Claims 1 and 12 are independent.

The present preliminary amendment to the specification places the application in more conventional U.S. form and incorporates the base Korean application by reference. No new matter has been added.

An Office action on the merits is eagerly awaited.

Respectfully submitted,

LEE, STERBA & MORSE, P.C.
